

NEW YEAR, NEW CHALLENGES

“No one ever said this cancer journey would be easy. This week we got the news that Lucy’s cancer is stable. She is really well and really strong in herself and most importantly she continues to be the happy, smiley little girl that we know and love. She eats well and sleeps well and is no longer weak or in pain like she was in the lead up to her diagnosis. While she’s been at home in between treatments, she has benefited from a home tutor for 3 days a week and keeps up with her school work as much as she can. She has also recently started gymnastics again!

This week, Lucy had her last chemotherapy (for now at least) before the Wright family embark on the next stage of treatment. Not what they expected but the next stage of treatment will take them to London for specialist intensive radiotherapy treatment. For now, they wait for a date. Despite this journey presenting them with a few twists and turns they remain positive about the next stage of treatment.

Our Mission to Michigan remains unchanged, but as we continue on this journey to get Lucy into remission we have to make a bit of a detour and as such a decision has been made to update the fundraising total to reflect the challenges that this incredibly emotional journey presents us with. We can only ask for your continued support.

On behalf of Lucy, Carrie, Richard and Lucy’s brother Sam, they continue to be so grateful.

If you can help with fundraising, donations or would be interested in attending any of the “Lucy’s Mission to Michigan” events, then please e-mail us at; carol@amberfamily.co.uk

You can also follow Lucy’s story so far on her Facebook page – [www.Facebook.com / Lucy’s Mission](http://www.Facebook.com/Lucy's%20Mission) or her Twitter page - <https://twitter.com/missionlucy>

Lucy’s Mum. The funds will be used to pay for Lucy’s unexpected treatment in London, Lucy’s continued home tutoring and we continue to pray that we get our brave, beautiful girl Michigan at the end of this year as planned.

TEAM LUCY
